

# HALO®

FASTER FOR LONGER™

## UNPARALLELED CHAIN LUBRICATION

HALO® sets a new standard for chain lubrication. Engineered for cutting-edge efficiency, unrivaled durability, and world-class performance. It was developed and tested at the highest levels of professional cycling and is currently providing performance advantages for World Tour teams. HALO® delivers an ultra-low coefficient of friction, significant reduction in drivetrain wear, and all weather performance.

WAX

Endurance	Coefficient Of Friction	Dirt Defense	Water Resistance
300+ Miles (480+ Km)	Best Choice	Low-Contamination	Best Choice
500+ Miles (800+ Km)	Ultra-Low	Best Choice	Best Choice
300+ Miles (480+ Km)	Ultra-Low	Best Choice	Moderate

HALO® WET

### Ultimate Drivetrain Efficiency

HALO® Wet is our fastest lubricant, engineered for cyclists who prioritize maximum drivetrain efficiency and when speed and responsiveness matter most. This low-viscosity formulation reduces friction to near imperceptible levels, while its fully waterproof formulation ensures consistent results even in extreme conditions.

A single application lasts up to 300 miles (480+ km), delivering optimal drivetrain performance for every mile.

#### Pro Insight:

Bahrain Victorious trusts HALO® Wet on sprint stages at the Tour de France—where drivetrain efficiency can be the difference between the podium and the peloton.

## HALO® HOT WAX

### Maximum Endurance - All Conditions

HALO® Hot Wax is our most advanced chain treatment—engineered for riders who demand maximum cleanliness, longevity, and all-condition performance. Its fully waterproof formula forms a dry, ultra-low-friction barrier that resists contamination with ease—delivering a cleaner, quieter, and faster ride. A single application lasts up to 500 miles (800 km), even under high torque and extreme conditions.

HALO® Hot Wax is packaged in a boil bag, allowing you to melt and apply the wax using a pot of boiling water—no specialized equipment required—making pro-level chain treatment easier than ever.

#### Pro Insight:

For Giant Factory Off-Road, HALO® Hot Wax is more than a lubricant—it's a race-day strategy, trusted to maintain drivetrain efficiency across long races and punishing terrain.

## HALO® WAX

### Maximum Cleanliness - Easy Application

HALO® Wax is a high-performance, water-based, wax lubricant that is easily applied via the innovative Smart Luber™. The advanced wax formula forms a dry-to-the-touch, ultra-low friction, long-lasting barrier that keeps chains clean, quiet and extremely efficient.

Ideal as both a standalone lubricant and as a top-off between HALO® Hot Wax treatments, HALO® Wax delivers up to 300 miles (480+ km) of clean, low-friction performance per application.
